

COUNTRY REPORT 2017

* AEFI Mission and goals

Promotion of the technical, scientific and social advancement of the members and safeguard the strict observance of the ethical standards.

To achieve said ends, AEFI can organize and convene courses, congresses, seminars, meetings and other activities, as well as to promulgate publications, within the field of pharmacy and of other professionals in the Industry, with freedom of time, place and persons.

AEFI will have as specific ends:

- a) To assume the representation of the associates in their relations with the different organisms or entities of a technical or scientific nature, be they national or international.
- b) To defend the rights of the Association as a body and of the Associates as individuals.
- c) To propose to the General Council of Official Colleges of Pharmacists, the drafting of as many dispositions it deems opportune for the technical and professional advancement of the members it represents.
- d) To foment and promulgate with all the means at its disposal, all kinds of scientific work, and request the support that is necessary for them.
- e) To institute prizes, awards and distinctions in the form and measure that the General Assembly shall establish.
- f) To collaborate with the competent organisms insofar as this concerns the benefit of the service of the associates.
- g) To establish relations and contacts with as many Commissions, Organisms, Associations, etc., both national and foreign, that can benefit the professional and cultural advancement of the associates.
- h) To inform the members of AEFI, on all kinds of technical and legal questions and of as much as is judged of interest for the same.
- i) To achieve the ends of AEFI, the following may be established, in accordance with the legislation and standards in force, a) specialized groups according to the type of industries or areas of work in which the associates exercise their profession, b) sections as established in article 2.
- j) To promote and to foment the continuous vocational training of the associates.
