

Associazione Farmaceutici Ticinesi

2016 Annual Report

Mission and goals

AFTI was founded in 1982 and is the leading association of professionals working in the pharmaceutical and allied industries of the Canton Ticino, the largest Italian speaking part of Switzerland.

The affiliates to AFTI are doctors in the scientific disciplines (Chemistry, Chemistry and Pharmaceutical Technology, Pharmacy, Biological and Medical Science, or others playing a significant role in the pharmaceutical industry) or technicians operating since at least three years in the pharmaceutical industry.

The main goals of AFTI, as defined in the Statutes, are:

- To promote the scientific and professional development of the affiliates, encouraging high standards of education at undergraduate and postgraduate level
- To organise courses, symposia, and in general events on scientific and technical aspects regarding the pharmaceutical field
- To support initiatives for the promotion of the knowledge in the pharmaceutical environment
- To maintain strict contacts with the Health Authorities, being one of the reference bodies representing the affiliates on legislation matters

2015/2016 Main Activities

In 2015 AFTI organised conferences, courses and presentations for the continuous professional development of the affiliates, in agreement with the objectives of the Association.
