## Country report 2018-2019

The Panhellenic Association of Pharmacists (PEPharm) was established in 1929 as a professional and scientific association representing the pharmacists occupied in pharmaceutical private or public sector and in any case do not own their own pharmacy or pharmaceutical company. The Association's headquarters are in Athens, Greece.

Aims of PEPharm are to:

- Make known and uphold the position of the pharmacist in the entire pharmaceutical sector
- Promote and support the professional rights of its members
- Ensure and maintain continuous professional development and training of its members

PEPharm's activities include and are not limited to the following:

- Participate and negotiate labor agreements with other stakeholders on behalf of its members
- Organize scientific and other events (congresses, courses, seminars etc.) to achieve its aims
- Establish and maintain subgroups handling pharmaceutical issues of special interest
- Participate in European Industrial Pharmacists Group (EIPG) as a full member, representing industrial pharmacists of Greece
- Participate in national and European projects
- Maintain a website and other communication vehicles for its members

PEPharm is a not-for-profit organization and its resources shall be applied for the purpose of attaining the aims of the association as defined by its Statute.

PEPharm is a professional group and shall be independent of all political parties and/or movements.
